

COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

SIXTH FLOOR
PRUDENTIAL BUILDING
195 NORTH TERRACE
ADELAIDE

BUILDING APPROVALS

SOUTH AUSTRALIA

NOVEMBER 1963

SCOPE

This bulletin shows the number of "New Dwellings" and the value of "New Dwellings", "Other New Buildings", and "Additions and Alterations", approved in South Australia from October 1961 to November 1963 and gives details of the types of dwellings approved during the same period.

The statistics relate only to buildings as distinct from the construction of roads, bridges, railways, earth works, water storage, etc., and have been compiled from (a) particulars listed on returns from local government authorities of permits issued to private persons and organizations for building in areas subject to building control, (b) particulars, furnished on the same returns, of building known to be projected or to have been started in areas beyond such building control but within the general jurisdiction of such authorities, and (c) details of contracts let or expenditure authorized by governmental and semi-governmental authorities shown on returns furnished by these authorities.

DEFINITIONS

VALUE: The values shown represent the estimated cost when completed (excluding cost of land) of new buildings and of additions and alterations to existing buildings.

NEW BUILDINGS: Additions of £5,000 and over to existing buildings (other than houses) are regarded as "new" buildings and are included in the figures shown in Table 2.

PRIVATE and GOVERNMENT: Building is classified as "Private" or "Government" according to ownership, e.g. the majority of homes built by Government housing authorities are classified as "Government" even though some are intended for sale on completion.

COMMENT

For purposes of comparison it should be borne in mind that the volume of building approvals is affected from month to month by the incidence of large projects such as blocks of flats, hospitals, multi-storey office buildings, etc., and also by the administrative arrangements of local government and semi-government authorities.

During the three months ended November 1963 the number of dwellings approved for private owners totalled 2,390, a decrease of 25 from the figure of 2,415 for the previous three months but 433 more than the 1,957 approved during the three months ended November 1962; value of other new buildings approved (Private and Government combined) was £10,295,000, which was £5,750,000 more than for the previous three months and £2,763,000 more than for the three months ended November 1962; value of all building approved was £21,417,000, an increase of £1,798,000 on the figure for the previous three months and £1,827,000 more than for the three months ended November 1962.
